- THE 375 NOMAD SE -

LENGTH: 37' 6" / BEAM: 10' 6" / FUEL CAPACITY: 406 GALLONS / WATER: 30 GALLONS

- THE 375 NOMAD FE -
The 375 Nomad SE (Side Entry)

The 375 Nomad features two console options to choose from. The SE (Side Entry) features a new, large console, a full-height glass windshield with wiper for protection from the elements and a head designed with a comfortable side entry. It also features a helm seat station to customize any way you wish with your choice of refrigerators, drawers, an ice maker and a tackle station.

OUR BEST THINKING GOES INTO EVERY BOAT WE BUILD.
THIS ONE COMBINES THEM ALL.
The 375 Nomad FE (Front Entry)

The 375 Nomad FE (Front Entry) is nicely equipped with many of the same impressive features as the SE but features a front entry into the head instead and includes the more traditional, fiberglass hardtop with aluminum t-top.

- A hi/lo actuating table can sit flush with the cockpit sole, become a filler for the forward seating and raise to table height.
- Both models also feature an optional integrated folding rear seat. It’s comfortable, convenient and easily folds away and disappears.
- The 375 Nomad FE features an innovative front entry into the head.
### STANDARD FEATURES

**Construction**
- Intrepid Hi-Flex White/White Gel Coat
- FRP Infused Hull, Liner, and Deck
