POWERBOATS

ONE OF A KIND. ONE AT A TIME.

- *THE 345 VALOR* -

BIG ON EVERYTHING YOU'RE LOOKING FOR IN A VERSATILE CRUISER.

At just under thirty-five feet in length, this curvaceous cuddy offers all the features you seek. Walkaround versatility. Offshore performance and fishability. Cozy seating everywhere, including a roomy wraparound bridge lounge. A state-of-the-art helm, spacious cockpit, and Euro-styled cabin all await your personal customizations.

With a large forward berth, well-appointed galley, and private head with built-in shower, it's the perfect overnight boat. But don't let that fool you, because this is also a versatile, high-performance dayboat ready to fulfill almost any bespoke boat owner's wish list.

All the luxury of our larger yachts in one **INGENIOUS NEW DESIGN.**

It's all here. Luxurious overnight accommodations designed to optimize cabin space, while providing yacht-class comfort and cutting-edge style. Filled with natural light, the spacious v-berth features a large settee and table with custom, wraparound seating, plus a private head with built-in shower for all the comforts of home.

When it comes to offshore performance, Intrepid's signature stepped hull crushes waves to deliver the smoothest, driest-running ride on the water. Powered by your choice of a twin or triple engine package, this nimble vessel runs efficiently at any speed, with the sure-footed handling to instill seakeeping confidence in any captain.

► With a surprising amount of headroom, the spacious queen-berth cabin with optional air conditioning is bathed in natural light pouring vented skylights and large hullside windows.

A STATE-OF-THE-ART HELM *designed for maximum command, control, and conversation.*

Adjustable twin helm seating features racing-style flip-up bolsters, and a slide-out cooler underneath. The expansive console has a large windshield and room for all the latest electronics. An accentuating sole platform elevates up to 4" for extra visibility.

An aft-facing seat beside the helm and spacious, wraparound seating area with retractable lounger and built-in cooler just in front of the helm invite easy interaction between captain and crew. There's even the option of a wraparound windshield to protect the entire bridge from the elements, while offering additional privacy and quiet.

► Spacious forward seating allows passengers to relax in style.

► Custom electrically adjustable helm seat with optional slide-out cooler.

Customized to come out and play YOUR WAY.

The ideal dayboat, your individually customized 345 Valor sets the stage for one perfect day after another of cruising with family and friends. The cockpit features a hull-side dive door with flip-out ladder that makes it easy to get in and out of the water. Divers can opt for a dive tank rack that holds multiple tanks.

For those who fish, the 345 Valor delivers in legendary Intrepid fashion. A customizable cockpit can be rigged with tackle and storage lockers, rod holders, and insulated fish boxes or coolers. Above-deck, pressurized corner bait wells with windows flank a rear bench seat that fold-ups when it's time to reel in your next trophy or table fare.

► Hullside dive door, an Intrepid trademark, with our latest lift up and rotate design that doesn't take up valuable cockpit space when in the open position.

► Custom above-deck pressurized bait wells with windows are tucked into the transom to free up valuable cockpit space.

► Cockpit storage compartments can be customized as insulated fish boxes, coolers, tackle or other equipment storage, including above-deck corner bait wells on either side of a folding rear bench seat for when you're ready to run or relax in the sun.

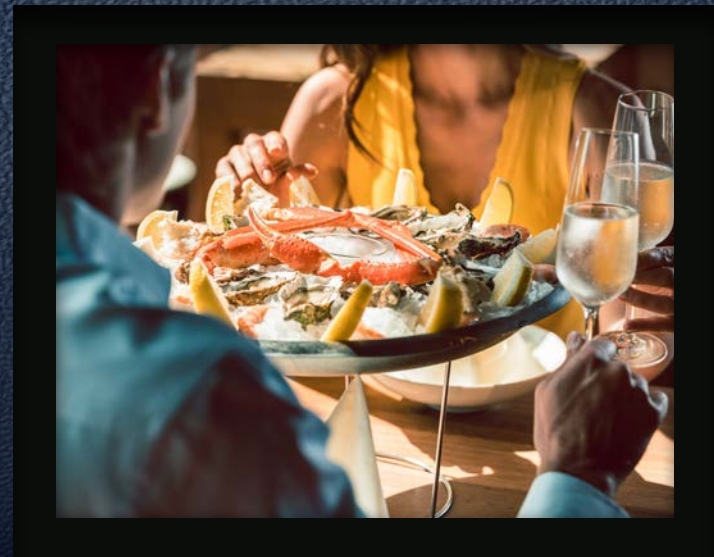

FORWARD THINKING *in a luxurious forward berth.*

Illuminated by large hullside windows and skylights, the surprisingly airy cabin optimizes space while providing superb overnight accommodations. Styled with premium European hardware, cabinetry, and finishes throughout, the forward u-shaped settee easily seats six, then converts to a generous queen berth at the touch of a button.

A well-appointed galley includes everything you need for dining and entertaining, with an abundance of cabinets and storage space everywhere. The private head with built-in shower complete a gracious ambiance designed to make you and your guests feel perfectly at home on the sea.

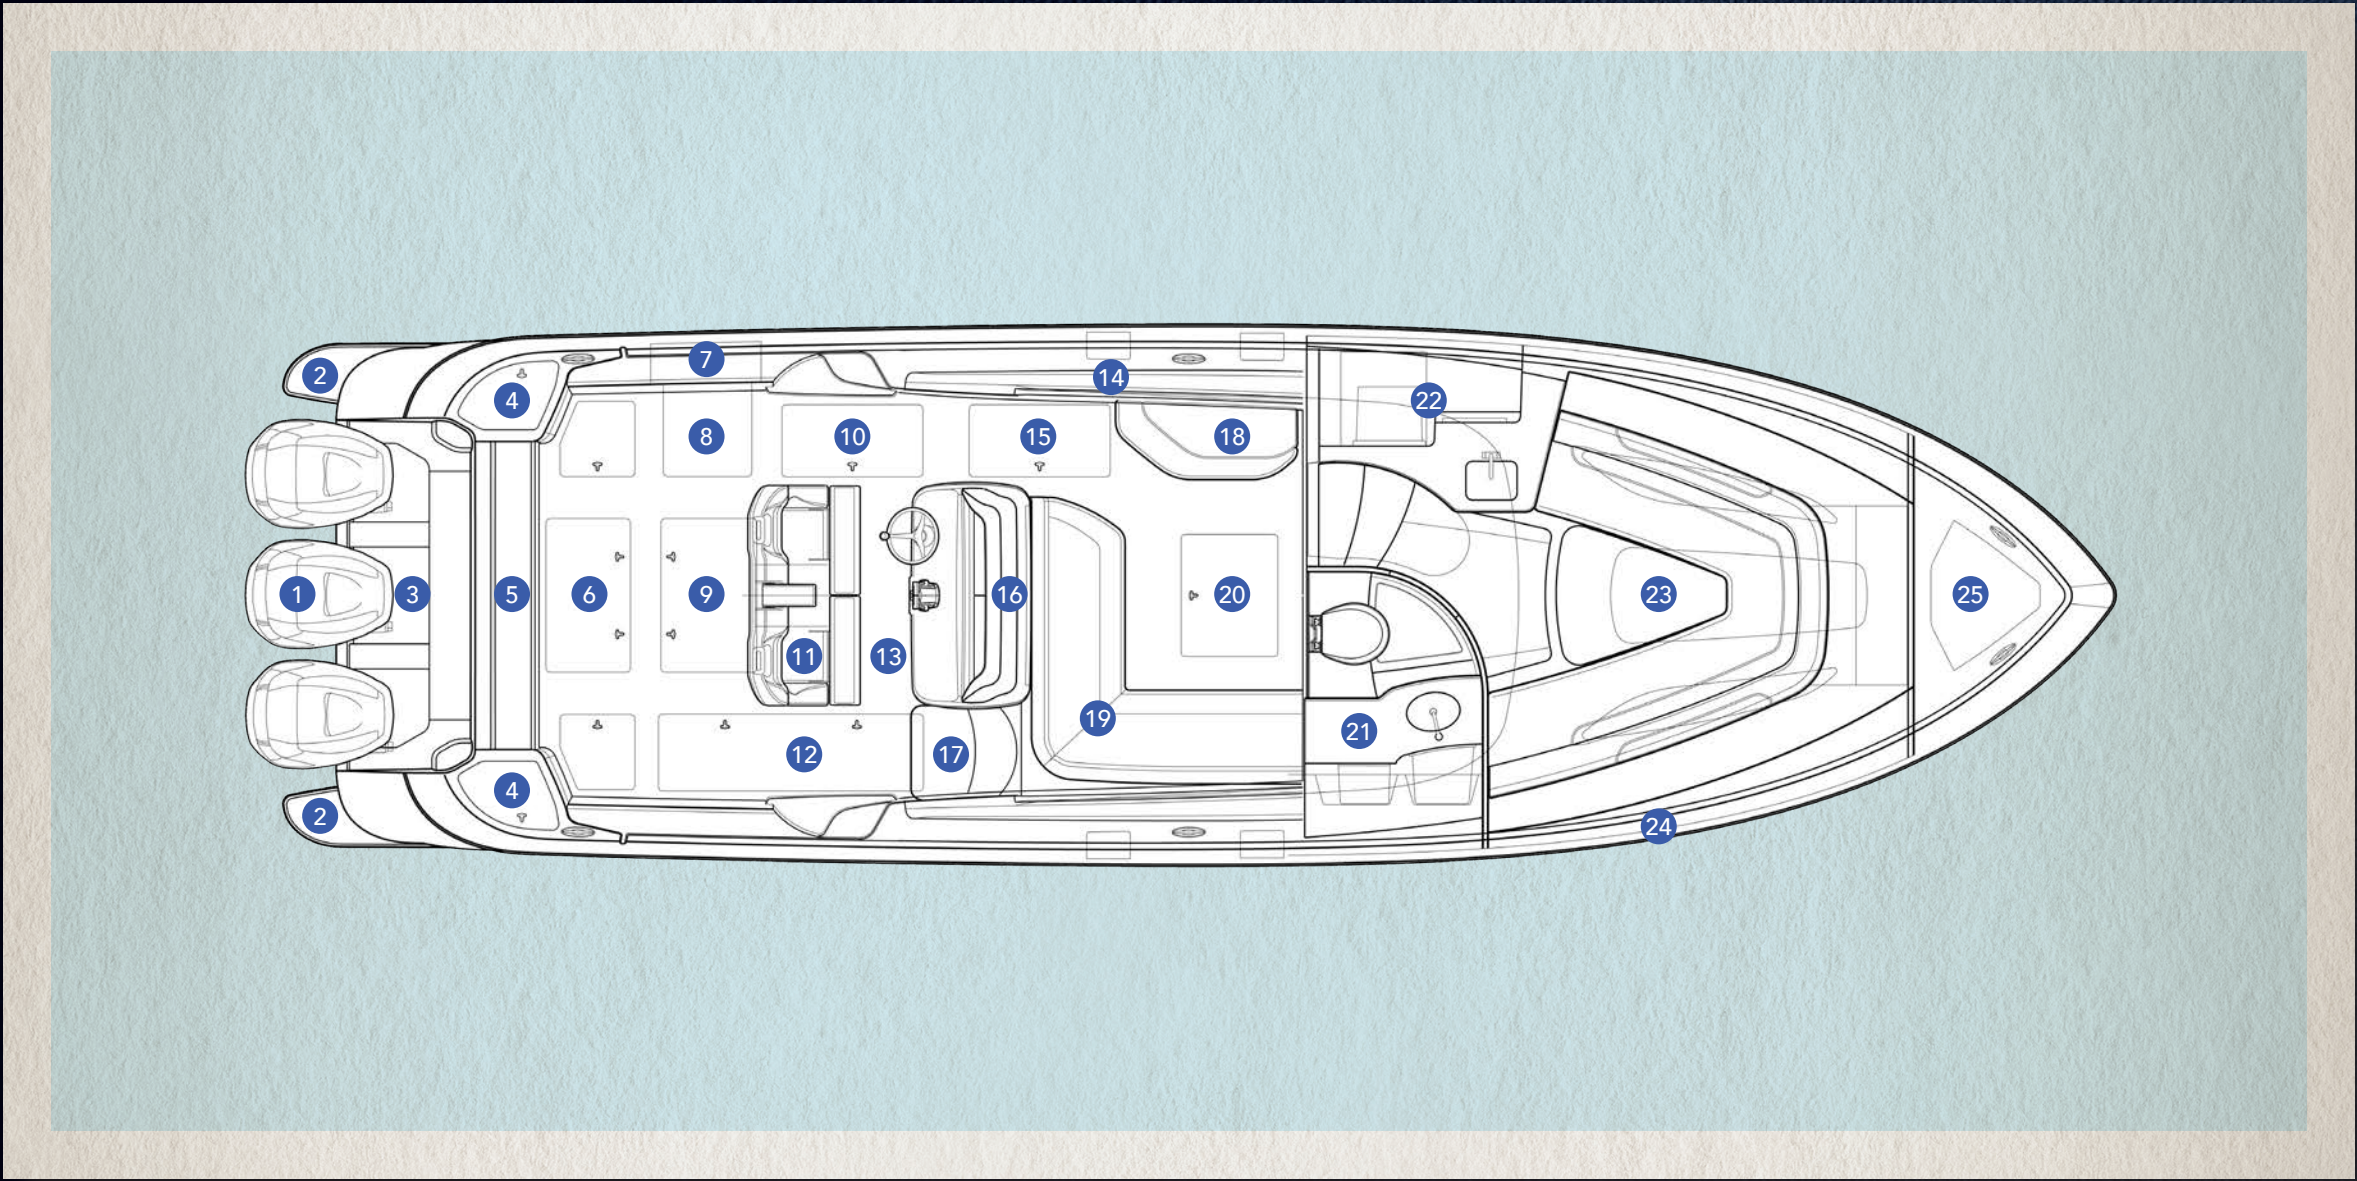

► Private head with vanity, sink, and built-in shower.

► A luxurious cabin can be air conditioned and personalized with your preferred finishes, electronics, and other accents.

THE 345 VALOR. *Uniquely yours, all Intrepid.*

1. Twin, or Triple engine configurations maximize aft cockpit space, as opposed to the space lost with traditional inboard applications.
2. Standard dual dive platforms and a boarding ladder. This fulfills the “means of solo re-boarding” which is a recommendation of the American Boat and Yacht Council. A safety essential other builders forego.
3. Convenient service platform in front of the engines and integrated steps makes access to maintenance quick and simple.
4. Port and starboard aft above deck storage or optional rigged baitwells make fishing this aft cockpit more convenient and roomy by not stealing valuable cockpit space.
5. The optional integrated folding rear seat is comfortable and convenient. It easily folds away and disappears when it’s time to fight some fish in the aft cockpit.
6. Mechanical access hatches to all transom rigging, pumps, etc.
7. Hullside dive door, an Intrepid trademark, with our latest lift up/rotate design that doesn’t take up valuable cockpit space while in the open position. And it also allows for easy dockside boarding.
8. Cockpit sole hatch to hide a retractable fold-out ladder that maximizes water access from the hullside dive door.
9. This cockpit sole compartment gives generous access to the generator for easy service and maintenance.
10. Cockpit storage and rigging access hatch.
11. The Ocean Elite helm seat with a fiberglass base allows space for additional items underneath like storage, fishing tackle, cooler and much more.
12. Large insulated and macerated fish box compartment. Fill it with your catch of the day or use this generous space for storage like fenders, lines and safety gear.
13. Our newest feature is the hydraulically actuated helm sole. No more standing on the footrest for a better vantage point. At the push of a button the cockpit sole in this area raises up to 4” in additional height.
14. This under gunwale fold out trash bin takes advantage of what normally would be wasted space and is convenient to everyone in the cockpit.
15. Cockpit storage and rigging access.
16. The all new console makes space for even the largest of electronics and comes with all the conveniences of cup holders, glovebox and a windshield for protection from the wind and elements.
17. This aft facing seat is an ideal place to sit when wanting to hang out with the captain while underway or to keep an eye on the action with the fishing lines.
18. This forward port side seat completes the seating circle in the forward cockpit making it the perfect “hang out” space for the entire group. It also offers additional storage underneath.
19. The large wraparound cockpit lounge has extensive room for family and friends. There’s even a slide out filler that fills in the “u” seating to create a sun lounge.
20. Mechanical access hatch to pumps, air-conditioning system, etc.
21. Spacious head with shower, solid surface countertops and built-in cabinetry big enough to hold all your sundries.
22. This galley has all you need with solid surface counter tops, refrigerator, sink, optional microwave and single burner stove top. Stainless steel lined Blum® self-closing drawers give you plenty of room for the proper utensils to complete your cooking.
23. This large forward settee area not only has enough room for you and your guests to gather around the table for dinner, but it also converts to an additional berth forward with the optional Hi-Lo table and filler cushion.
24. Large hullside windows let natural light in and allow you not to miss a thing when down below. Whether you are underway or at anchor you can always enjoy the view and when you want privacy simply pull down the built-in dual privacy shades.
25. To preserve the clean lines of the foredeck, we designed the optional windlass under an easily accessible hatch with plenty of storage below for your rode and chain.

INNOVATIVE DESIGN *and* INCOMPARABLE PERFORMANCE. *It's all in the* DETAILS.

STANDARD FUEL: 320 Gallons / BEAM: 10' 6" / LENGTH: 34' 6" / WATER: 30 Gallons

INTREPID CUSTOMER SERVICE. *As legendary as the boats themselves.*

Once you receive your new custom Intrepid, your relationship with us doesn't end -- far from it! As a member of Intrepid Nation, you become family, and we will always be here to support you and your boat. We love hearing your stories, getting your feedback, and maximizing your Intrepid experience.

Whether it's the day you first step aboard or 20 years and 20,000 nautical miles later, we go above and beyond to take care of you and your boat with the world-class customer care our owners have come to expect from Intrepid.

“ We take every Intrepid we build personal. It's not just a boat, it's a reflection of who we are as craftspeople. ”

Ken Clinton
