

## 327-I | *CENTER CONSOLE*

### - THE 327-I -

FURTHER PROOF THAT WE BUILD BOATS  
THE WAY THEY SHOULD BE BUILT.  
NOT THE WAY THEY COULD BE.

In true Intrepid fashion, innovation takes another step forward in the 327 I. Using actual aircraft and aerospace technology, we've created our first ever fully infused hull. This reduces the possibility of air voids and excess resin ensuring the running surface and aesthetics of the hull sides remain pristine and unaltered. The result is superior stability, performance and comfort at any speed. It takes longer, yes. But if it means making a better boat, then time shouldn't matter.

STANDARD FUEL: 230 Gallons / BEAM: 9' 10" / LENGTH: 32' 7" / WATER: 20 Gallons

## THE INTREPID 327-I
